Work address: EcoFlowS, INRAe, 5 Rue de la Doua, 69100 Villeurbanne
Home address: Marcel Porte, 38100 Grenoble
Phone: +33 662 04 98 13

Currently

I am looking for a postdoc position with the interests in:

> *Water quality modelling in rivers and estuaries.*
>
> *Eutrophication, greenhouse gases emissions and biogeochemical processes.*

Education

PhD thesis in the Environmental Science **11/2018-12/2021**

University of Grenoble Alpes (UGA, France)

Biogeochemical modeling in a tropical estuary and eutrophication management.

Master degree in Hydraulic **09/2017-08/2018**

Grenoble Institute of Technology (Grenoble INP, France)

Modeling nutrient dynamics in the Saigon River Estuary, Vietnam.

Bachelor degree in Environmental management **09/2011-02/2016**

Ho Chi Minh City University of Technology (HCMUT, Vietnam)

Antibiotic pollution in the Saigon River, Vietnam.

Professional Experience

Postdoctoral researcher (20 months) **05/2022-02/2024**

INRAE, l'Institut national de recherche pour l'agriculture, l'alimentation et l'environnement.

Studying the evolution of carbonate system at Loire River by using high resolution datasets.

Job searching (3 months) **01/2022-04/2022**

After completing my doctoral contract, I sought opportunities to apply my research expertise in a postdoctoral role in Europe.

Doctoral contract (38 months) **11/2018 – 01/2022**

Institute of Environmental Geosciences (IGE), France.

Water quality monitoring (nutrients, carbon, phytoplankton, greenhouse gases) and develop a biogeochemical model (1D reactive transport) for tropical estuaries.

PhD Application and Preparation (3 months) **06/2018-11/2018**

During this period, I focused on preparing and submitting applications for PhD programs, as well as engaging in necessary preparations for doctoral studies. This time also included a brief period of vacation.

Master program (6 months internship) **08/2017-07/2018**

Institute of Environmental Geosciences (IGE), France.

Implementation of a nutrient dynamics model for the Saigon River using C language.

Principal Investigator (6 months) **12/2016-08/2017**

Young Investigator Project, HCMUT, Vietnam

Design of a pilot scale constructed wetland and analysis of water samples.

Lab technician (18 months) **12/2015-06/2017**

Asian Center for Water Research (CARE-RESCIF), Vietnam.

Water sampling and operation of ICP-OES analyzer, TOC-V.

Bachelor internship (6 months) **06/2015-12/2015**

Project: development of "passive sampling" for the analysis of antibiotics in river.

Sampling and pretreatment of samples for antibiotics measurement.

Competences

Numerical

Extensive knowledge in Python, C & C++ languages for water quality modelling.

Data analysis

Data analysis and statistical analysis with Python and R on large datasets.

Visualization

Mapping and spatial analysis with QGIS and ArcGIS.

Languages

Vietnamese (native)

English (proficient, level B2)

French (basic, level B1)

Publications

Journals

1. Caracciolo, R., Escher, B. I., Lai, F. Y., Nguyen, T. A., Le, T. M. T., Schlichting, R., Tröger, R., Némery, J., Wiberg, K., Nguyen, P. D., & Baduel, C. (2023). Impact of a megacity on the water quality of a tropical estuary assessed by a combination of chemical analysis and in-vitro bioassays.
